Summary

Self-motivated software developer with strong understanding of web development, strong communication skills, and the ability to thrive in a fast-paced environment. Looking to work with a fun and creative team to solve real-world problems and transform good ideas into great products.

Technical Skills

LANGUAGES: Javascript, Python, HTML5, CSS, Swift, SQL
LIBRARIES & FRAMEWORKS: Angular, Express.js, Node.js, Bootstrap, Django, Flask
DATABASES: MongoDB, MySQL, Core Data, Firebase
OTHER: jQuery, Git, GitHub, AWS/EC2

Software Development Experience

Coding Dojo - *Full Stack Software Development Student* **Oct 2016 - Feb 2017**

Completed an immersive web development program with more than 1,000 hours spent learning and developing single and multi-page web applications using Python, MEAN, and iOS.

Projects

Snail Fantasy - *iOS, Swift, Core Data, Xcode, Firebase*

An iOS RPG built from the ground up with a three man team. Primary responsibility was game mechanic creation, creating logic behind battles, leveling up, and progression.

Food Plus Plus - *Python, Django, SQL*

A web app built with a three man team to connect food banks with people and companies looking to donate. Won first place at the Coding Dojo Thanksgiving Hack-a-thon.

Other Work Experience

Spiros Pizza & Pasta - *Server* **2012-2016**

Acquired strong ability to multi-task handling tasks for multiple tables to fulfill their needs. Managed dinner shifts orchestrating cooperation between the front and back of the house.

Education

Coding Dojo **January 2017**

Full Stack Software Development, with Black Belts in Python(10/10), MEAN(10/10), iOS(9.75/10)

University of Washington

Bachelors in Arts and Science, Political Science
